

WEDNESDAY 26 APRIL 2017

8:30-9:20	Registration
9:20-9:30	Welcome
9:30-10:15	Opening talk – Valerie Hazan and Outi Tuomainen (G10) Spontaneous speech production across the lifespan
10:15-11:15	Oral Session 1 (G10)
Judit Bóna & Timea Vakula	Disfluent word-repetitions across the lifespan
Elisa Pellegrino, Lei He, Nathalie Giroud, Martin Meyer, Volker Dellwo	Speech rhythm and aging
Mária Gósy & Valéria Krepsz	Stem and suffix durations in words of increasing length across the lifespan
11:15-11:45	COFFEE BREAK (G15)
11:45-13:00	Flash presentations and poster 1 (G10/B01)
13:00-13:45	LUNCH (G15)
13:45-14:40	Keynote 1 – Sandra Gordon-Salant Factors influencing speech perception in older adults
14:40-15:40	Oral session 2 (G10)
Aina Casaponsa, Viktoria Vianeva, Michael Akeroyd, Johanna Barry	Listening across the life span: What you have to do determines how you do it
Sarah Colby, Meghan Clayards, Shari Baum	Top-down and bottom-up perceptual learning for speech is maintained in older adults
Shekeila Palmer & Sven Mattys	Statistical learning for speech segmentation: Age-related changes and underlying mechanisms
15:40-16:10	TEA BREAK (G15)
16:10-17:05	Keynote 2 – Hayo Terband Toward a model of speech development and disorders for diagnosis and treatment planning
17:05-17:45	Oral session 3 (G10)
Laurianne Cabrera, Christian Lorenzi and Stuart Rosen	The development of speech perception in noise: the contribution of temporal-processing
19:30 – 22:00	WORKSHOP DINNER (THE PEASANT, 240 St John St, Clerkenwell, London EC1V 4PH)

THURSDAY 27 APRIL 2017

9:15-10:10	Keynote 3: Mitchell Sommers Listening Comprehension Across the Adult Lifespan
10:10-10:50	Oral session 4 (G10)
Chris Davis, Jeesun Kim, Outi Tuomainen, Valerie Hazan	Partner-directed gaze in a communicative task: the effects of age and communication barrier
Anne Hermes	Effects of ageing on articulation
10:50-11:20	COFFEE BREAK (G15)
11:20-12:00	Oral session 5 (G10)
Cecile Fougeron, Véronique Delvaux, Cedric Gentrot, Marina Laganaro, Lucie Ménard	Introducing two databases of spoken French throughout adulthood
Martin Hagmüller	Challenges for Automatic Speech Recognition over the Life Span
12:00-13:15	Flash presentations and poster 2 (G10/B01)
13:15-14:00	LUNCH (G15)
14:00-14:45	Panel session on challenges of lifespan studies (G10)
14:45-15:40	Keynote 4: Paul Foulkes Sociophonetic perspectives on first language acquisition
15.40-16.10	TEA BREAK (G15)
16.10-17.10	Oral session 6 (G10)
Elizabeth Wonnacott, Anastasia Giannakopoulou, Helen Brown, Meghan Clayards	High or Low? Comparing high- and low-variability phonetic training in adult and child second-language learners
Susanne Brouwer, Simone Sprenger, Sharon Unsworth	Processing grammatical gender in Dutch: Evidence from eye movements
Bronwen Evans, Lidia Martin-Alvarez, Elizabeth Wonnacott	Age-related differences in second-language learning?
17.10-17.20	Final discussion and closing comments (G10)

WEDNESDAY 26 APRIL: FLASH PRESENTATIONS AND POSTER SESSION 1

Anita Auszmann	Phonological development of vowels in Hungarian children
Gwen Brekelmans, Elizabeth Wonnacott, Bronwen G. Evans	The effect of variability on phonetic training for adults and children
Chadi Farah, Nuria Esteve-Gibert, Stephane Roman, Mariapaola D'Imperio	Prosodic Focus Acquisition in French Early Cochlear Implanted Children
Kathleen McCarthy, Katharine Mair, Katrin Skoruppa, Paul Iverson	Development of speech processing in infancy and its relationship with later language skills
Dorottya Gyarmathy	Functions of silent pauses in spontaneous speech
Joan C. Mora	Individual differences in L2 bimodal input processing
Leanne Nagels, Roelien Bastiaanse, Anita Wagner, Deniz Bařkent	The Processing of Lexical and Contextual Information in Cochlear Implant Users
Tilda Neuberger	Perception boundaries between single and geminate stops in Hungarian children and adults
Melissa Redford	Orthogonal development of schwa coarticulation and reduction in DET+N sequences
Miriam S. Tenderini, Esther de Leeuw, Tiina M. Eilola, Marcus T. Pearce	Bilingual experience of emotional meaning: priming effects between music and the first and second language

THURSDAY 27 APRIL: FLASH PRESENTATIONS AND POSTER SESSION 2

Sarah Colby, Victoria Poulton and Meghan Clayards	Inhibition predicts lexical competition in older adults' spoken word recognition
Viktória Horváth, Viola Váradi, Judit Bóna	Characteristics of filled pauses across the lifespan
Ella Jeffries	Developments in accent perception between the pre-school and primary school years
Holly Kennard	Production and perception of stress in 'traditional' and 'new' speakers of Breton
Valéria Krepsz & Mária Gósy	Auditory-phonetic processing in word recognition across ages
Anabella-Gloria Niculescu-Gorpin & Monica Vasileanu	Perception and Processing of Context-dependent Anglicisms across the Age Groups
Rosie Oxbury & Esther de Leeuw	Style-shifting and its acoustic correlates in a cohort of 11 year old girls from East London
Nikola Paillereau & Naomi Yamaguchi	Acoustic treatment of vowels produced by infants and visualisation of formants in the VisuVo software
Stefanie Ramachers, Susanne Brouwer, Paula Fikkert	Native and non-native perception of lexical pitch patterns across the lifespan
Josiane Riverin-Coutlée & Vincent Arnaud	Regional variation in young adult and older speakers of Quebec French
Adrian P. Simpson	Are ejectives on the increase in English? Evidence from a single speaker
